## Periodic inspection checklist (EN)

In accordance with ISO:10535

PI03001 Rev. C 2022-05-23

### Product label

SWL value

### ID label

Serial no.

Article no.

Production date

A copy of this document is available for download at [www.etac.com](http://www.etac.com).

Scan QR code on product label for accessing product home page. The user manual can be found in the document section.

Article no. (see ID label):

.....

Serial no. (see ID label):

.....

Production Year:

.....

Owner:

.....

Sling shall be inspected separately and is not included in this inspection.

**Service light indicator**

Note colour of service light indicator:

Status	Service light	Mode
	(No light)	Power saving (Stand by)
	Green	Ready for use
	Yellow	Order service
	Red	Perform service
	Red (and sound when activated)	Perform service immediately

**Situation of use**

- Home
- Hospital
- Nursing home
- Other

**The periodic inspection is to be performed by a person who is suitable and properly qualified and well acquainted with the design, use and care of the hoist**

**The hoist's software Molift Service tool provides option to enter date of PI and name of inspector along with additional information. Molift recommends adding all observations / remarks concerning the hoist in the Molift Service tool for complete history of the hoist**

**Visual examination**

**Visual examination of load bearing structure to make sure there is no damage, cracks, frays or deformation. All checkpoints must be checked to approve hoist for further use**

OK	Not OK
	Lifting column
	Lifting arm
	Product label
	Plastic covers
	Hand control
	Wheels / castors
	Brakes on wheels / castors
	Cables
	Battery
	Other electronics
	Sling bar
	Leg spreading mechanism
	No corrosion
	Weldings
	Instruction for use / user manual is present / available

**Functional examination**

**Test FUNCTION and check for wear and damage. All checkpoints must be checked to approve hoist for further use**

<i>OK</i>	<i>Not OK</i>
	Wheels / castors
	Wheel / castor brakes
	With legs in inner position (parallel): Check that the distance between legs can not decrease when pushed together by hand
	Lifting column is completely fixed when locking handle is engaged
	Emergency stop button is fully operational and interrupts power when engaged. Reset switch
	Tool for manual emergency lowering
	Electrical emergency lowering
	Manual emergency lowering
	Hand control (buttons, strain relief on hand control cable, hook, and battery indicator)
	Sling bar coupling (swivel joint moves freely and without noise)
	If all points so far are "OK", hoist shall be tested with SWL.
	Perform one lifting cycle with weight equal to SWL (see product label for value kg/lbs). Motor and spindle or must not slip when loaded (causing lifting arm to lower), and movement must be smooth and even
	Leg spreading mechanism, outer and inner position with SWL
	Perform new visual control; Damage, play and deformations as described above. Any damaged parts must be repaired or replaced and test is repeated once more until the hoist performs correctly
	Charger is operational

*OK*    *Not OK*

Battery.  
With fully charged battery inserted, after initial cycle, battery light is off, and service light indicator is green

**Performed by**

Full name:

.....

Date/Place:

.....

Signature:

.....

Approved without faults

Next inspection (YYYY / MM): ...../.....

Hoist is marked with "Out of order" and sent for repair  
Hoist is not eligible for repair and taken out of service

If periodic inspection reveals any defect, wear or other damage that jeopardises the safety of the patient the hoist may not be used until the deficiency has been eliminated

The owner is notified

**Notes and observations**

 **Due to legal requirements this document or a copy must be filed with the owner's service log book**

If approved without faults, apply inspection label and mark with month and year for **next** inspection. When ordering label, use item no. 1100306

Mark label with month and year for next inspection
